Report of Forest Fire Warden

I wish to submit the report for the year 1940 which was considered a very hazardous year although Grafton had very few fires considering the amount of downfall there is in town. The reason for this is the good co-operation that we got from the towns people and public in general.

With the new fire equipment that we now have we are quite well prepared to take care of any small fires that might occur. However we must be better and better prepared to meet emergencies because with unfavorable weather conditions the hazard is bound to be greater during the coming fire season. Through the kindness of Mr. Leslie Seamans we have a nice trailer in which to keep our fire equipment.

I think we owe our thanks to the Danbury C. C. C. Camp for building three water-holes in our town. These water-holes are of great help in case a forest fire pumper

has to be used.

Under the present forest fire fighting set-up we have a crew of very fine fire fighters. They are trained and know their place at a fire and are ready to go at a moment's notice.

I think we owe our thanks to the District Chief for his cooperation in helping to train our forest fire fighting crew. I also wish to thank the deputies and other town officials and towns people for being so cooperative.

As we all know by now that the law requires a permit to burn before doing any burning. Because burning without a permit puts the party that is doing the burning liable to all expenses also court action. I am in hopes to still get cooperation of the towns people as this not only cuts down fires but helps to keep the taxes down.

ROMEO O. DECATO,

Forest Fire Warden.
